When the company LAUFEN was founded in Switzerland in 1892, sanitary conditions were well below today's standards and level of convenience – standards to which LAUFEN, the only sanitary porcelain manufacturer producing exclusively in Europe, contributed.

iLausanne. The first water and gas valves in Switzerland were produced here in 1863. Faucets have been manufactured at the Laufen site since 2009.

antoniolupi

Antoniolupi is a Tuscan company which has stood out in the design and manufacturing of bathroom furniture, both in Italy and abroad, for the past sixty years.

The distinctive features of this ever-developing company are its ability to innovate by continuously creating design, while investing heavily in manufacturing technology and collaborating with well-known designers.

Devon&Devon

The Devon&Devon brand made its debut in 1989 in Florence as the offshoot of a business initiative of architects Gianni and Paola Tanini who have been at the helm of the company since the outset, sharing the same managerial and creative vision: create a complete, coordinated bathroom inspired by European tradition and the most refined American design of the first half of the 20th century.

Since 1956, THG Paris has established itself as THE brand for high end bathroom fittings and accessories.

Semi-precious stones, crystal, porcelain, onyx, optical glass, natural marble: the brand scrupulously selects top quality materials to create exceptional pieces. THG Paris represents resolutely timeless

The days were long. More than sixty years ago, Aloys F. Dornbracht, who was 57 years old at the time and his son Helmut, were working until five o'clock in the afternoon for other firms, so that they could then use their wages to set up their own business in an old shack in Iserlohn. Evening after evening, they stood at the workbench, filing and polishing the first Dornbracht patent - a totally new fitting with an extending spout Today, it is still that entrepreneurial spirit to take risks and welcome change, that determines the success of this family company.

Alape

Alape has been synonymous with quality solutions in the sanitary area since 1896. Such classics as the sink basin, the world's first built-in basin and the first bathroom cabinet-washtable combination were invented by this tradition-steeped company.

In this way, Alape also had a decisive influence on the development of the bathroom With Aloys F. Dornbracht GmbH & Co. KG and Alape GmbH, the Dornbracht Group unites two premium suppliers for kitchen, bathroom and spa items under one roof.

Fantini is a typical example of an Italian design factory, a family business established in 1947 by brothers Giovanni and Ersilio Fantini, a place with immense creative intensity that manages to combine great hand-crafting skill with industrial technology and processes Fantini is in Pella, on the shores of Lake Orta, a small lake set among the mountains of Piedmont: it's a sort of genius loci, an ideal location where the constant presence of water and the serene atmosphere it creates are the premises for work and creativity.

ZUCCHETTI.

Zucchetti's success story first began in a small foundry in Valduggia (in the province of Vercelli) set up by Alfredo Zucchetti in 1929. Today the Zucchetti. Kos Group, led by Elena and Carlo, with cousins Marco and Paolo Zucchetti, consists of 4 factories and a logistics centre covering a total of 72,000 square metres, employing 400 people and producing 2 million articles every year.

STEINBERG

For more than 15 years Steinberg have been offering products out of the ordinary to better express your individuality. The Steinberg brand enables you to make a personal statement also in bathroom and spa, for they are part of the integrated living concept—a homage to your individual lifestyle. Uniform and ordinary designs make it hard to express your individual lifestyle, however, which is why we at Steinberg focus on our designs being individual, fresh and all other than conventional. This has been our basic principle from the very beginning—and still is.

The company, first established under the name Fir Rubinetterie, grew over time, diversifying production and offering new types of products, including mixer taps and shower heads for professional use and large facilities, bathroom accessories, mirrors, lighting and heated towel rails, aimed at accommodating the refined taste of those who wish to coordinate décor elements with mixer taps and shower heads from a design and aesthetic viewpoint.

kreco

Extraordinary creativity and experimentation in the field of marble processing and magnification of Made in Italy. Kreoo realizes furniture items with high design level for bathroom, living and garden, both for contract and home. In 2010 thanks to the 50-year-long experience by Decormarmi, Kreoo creates an unexplored dimension of the marble item managing in exalting its sensual and secret soul. Marble is combined with wood, Murano glass, and metals.

SLOAN.

A pioneer in plumbing technology. Sustainability in our DNA. Four generations of family. And we're just getting started.

William Elvis Sloan establishes Sloan Valve Company in 1906 in Chicago, ushering in the modern plumbing era with his invention of the revolutionary manual Royal® Flushometer. The Royal Flushometer is the first of its kind, designed to replace tank and chain fixtures. Unlike its predecessors, it requires less water and energy—a reliable flush unaffected by gravity.

SCHELL is also located here, one of the first points of contact for high-quality fittings for building technology. What fitters, dealers, planners, architects and also builders appreciate about our Olpe family business: the uncompromising quality, the innovative products and, in particular, the striving towards the perfect and sustainable solutions.

KALDEWEI

As a leading international manufacturer of high-quality shower surfaces, bathtubs and washbasins made of superior steel enamel, KALDEWEI is represented in more than 80 countries including 12 subsidiaries in Austria, China, Czech Republic, France, Italy, Poland, Russia, Spain, Southeast Asia, Spain, the UK and the USA. Project decision-makers and private builders throughout the world appreciate the many advantages offered by superior KALDEWEI steel enamel which is used in numerous topclass hotels. International sales account for over 50 % of total turnover. 100% "MADE IN GERMANY"

DELABIE

DELABIE, a distinguished history

In 1928, Georges DELABIE, a sanitary ware wholesale merchant in Paris, acquired a foundry located in Friville in the Somme, France. There he produced mainly taps and floor traps for bathrooms and kitchens.

Subsequent generations secured the family-owned company's growth, with the ongoing remit to preserve the brand's identity and continue its pursuit of excellence.

ÜLI

OLI-Sistemas Sanitários, S.A. is much more than just a company. Tenacity and excellence. Honesty and credibility. Founded on traditional and family values. OLI has reached a high level of quality by analysing, growing, anticipating market needs and investing in innovation and development; parameters which make our brand, OLI, a certified brand that is recognized throughout the world. Our journey is depicted in the pages of this brochure.

Giorgio's brand was born in 1981 The idea is derived from the COURAGE to always face new managements' challenges and from the PASSION for its job and mostly for the culture of Italian DESIGN internationalization, as big tank of creativity and stylish, which "People are not anymore getting satisfied of having only good products and services, but want to be assured that no rake off will be paid.

For more than three decades, Watermark Designs has been a leading manufacturer of decorative plumbing fixtures, bathroom accessories, lighting and elegant hardware for the luxury commercial and residential markets. Based in the independent design hub of Brooklyn and made in the USA, Watermark's designs are a reflection of the creative melting-pot from which we hail.

It is fire, a mobile element that nourish itself with air to manifest its explosive power over matter.

Tied to past traditions but projected towards the future, TerzoFoco distinguishes itself within the fertile territoty of artistic ceramics from Deruta as a company that is abreast with the times and able to combine the historical roots of majolica art with contemporary needs.

Handmade, handpainted and self-designed sinks for the bathroom.

Each hand made bathroom sink is a unique, signed, piece of functional art.

From the research and creation of models, to the casting and finishing, enamelling and decoration, everything is done internally and exclusively by hand.

Design, patterns and colors blend together to create shapes and objects that create a unique characterizing your bathroom area.

bathco

We have been designing, manufacturing and distributing a wide range of bathroom products for 38 years, a period of time in which we have crossed borders thanks to our intuition and know how.

Nowadays, looking back at the past, we are proud of being present in the five continents. The secret may have been the fact of incorporate the latest technology in our work but without forgetting our roots.

SCARABED"

Scarabeo Ceramiche was founded in 1974, in Civita Castellana, by Giovanni Calisti and other partners, with the manufacture of elegant and functional washbasins. Their success was almost immediate, helping to establish the company both in Italy and abroad and resulting in the signing of strategic agreements with other companies in the sector.

In 1981, our passion for design turned us into the Europe's leading company in the creation of ceramic bathroom accessories. In 1998, we launched our designer washbasins on the market, followed over the years by the thin-rimmed and square models and the model without a water containment rim.

A series of successes led to expansion of the Civita Castellana plant in 2004 and to opening of the Fabrica di Roma plant in 2008.

noken Porcelanosa Bathrooms

Noken Porcelanosa Bathrooms is the PORCELANOSA Group company specialised in bathroom fittings.

Since it was founded, the firm has been distinguished by offering the best technology, quality and exclusivity in its bathroom elements, from toilets and bathtubs to the newest taps, washbasins, bathroom units, showerheads, shower trays, towel dryers and bathroom accessories.

A company specialised in bathroom fittings, always committed to caring for each detail.

Its efforts in design, quality, commitment to sustainability and the excellent service offered to its clients place Noken at the top rankings of businesses in the sector, exporting its bathroom products to over 110 countries.

There is a distinguished philosophy that lies behind the success of MGM Stone Contract srl: appreciating the real value of the stone, made of prestige and naturalness, in order to maintain a close connection with nature, modernity and elegance.

Our company relies on advanced techniques, which allow the execution of cuts and designs adopted by some of the most skilled craftsmen and architects of all times. These are at the disposal of our professionals and for the most demanding customers.

Cea

CEA initiated its activity in the field of high-quality design, bathroom taps and fittings in 2007 and was very soon acclaimed on account of its distinctly innovative style and forms. Characterised by a strong technological bias and an interest in 're-interpreting' products or developing new forms of application, CEA has gained distinction in the world of bathroom fittings and décor as a company with a futuristic outlook and is now increasingly seen as an important point of reference within the sector.

fima CARLO, FRATTINI

"When I founded the company, in the Sixties, I had some experience in the sector as I had been working as an artisan for some time. I had invented some special machines for processing hoses. I began producing accessories and later entered the mixer sector, together with my family.

Lefroy Brooks is the manufacturer of classic British bathrooms. All taps are hand cast, hand forged, hand polished and hand assembled.

Our luxury goods cover brassware, chinaware, baths and marble consoles produced in Massa Carrara.

WATERMYRK

MADE IN BROOKLYN, NEW YORK

For more than three decades, Watermark Designs has been a leading manufacturer of decorative plumbing fixtures, bathroom accessories, lighting and elegant hardware for the luxury commercial and residential markets. Based in the independent design hub of Brooklyn and made in the USA, Watermark's designs are a reflection of the creative melting-pot from which we hail.

The history of miscea GmbH dates back to 1999 when in Augsburg, two engineers shared a vision to develop an improved dispensing system for the medical market and food production industry.

They envisioned a system which would combine the functionalities of a faucet and at least one other liquid to enhance efficiency and hygiene; an idea that would change the way people washed and sanitised their hands and see the beginning of miscea.

Condor, a major player among the few bath and balneotherapy specialists "made in France"

Condor engages in a global approach of customer satisfaction that starts before the purchase and continues during the lifetime of the product.

ACCESSORIES

DECOR WALTHER

Decor Walther has stood for quality bathroom furnishing such as lamps, mirrors and accessories for over four decades.

It all began in 1973, in Frankfurt am Main/Germany, with a small specialist shop founded by Harald Walther. Today we are one of the leading suppliers in this sector, reaching far beyond Germany's borders.

Our company philosophy, which makes our products so unique on the international market, has evolved along with our company: Discreet luxury These words sum up what sets us apart from the norm.

HEWI

The success story of Heinrich Wilke GmbH begins in 1929, as Heinrich Wilke had the Waldecker company entered in the commercial register under the abbreviated name HEWI: HEWI stands for the initial letters of his name.

From grain binder equipment to coin trays, buttons and finger plates through to the first nylon lever handle, HEWI made useful products from polyamide and is therefore one of the first plastics processing companies in Germany.

HEWI offers decades of experience in synthetic material technology. Since 1929, HEWI has produced synthetic material products in its own plant in Germany. We are known worldwide for our high-gloss surfaces and uniquely brilliant colors. The products made of polyamide have a non-porous surface and are therefore particularly hygienic and easy to clean.

ACCESSORIES

KITCHEN

SPA SYSTEMS

Founded in 1915 by seven brothers, led by Giocondo Jacuzzi, Jacuzzi and Brothers made wooden propellers under military contracts, based at 2043 San Pablo Avenue, Berkeley, California. In 1920 the brothers also dabbled briefly with aircraft design and manufacture, with a single-seat monoplane and a seven-seat cabin monoplane.[4] Both aircraft were noted for their use of laminated wood products for fuselage manufacture, but were essentially unsuccessful, with only one of each type being built.

In 1921, Giocondo Jacuzzi, a pilot, and two company employees were killed when one of their planes crashed in Modesto.[5] By 1923 the company was styled as Jacuzzi Bros Propellers, with headquarters at 1450 San Pablo Ave.

Quality, tradition, design and innovation for products dedicated to contemporary wellbeing.

This is now the mission of effegibi, the fruit of a project launched in 1987 when the company was originally founded.

Effegibi began life producing finnish saunas, and soon after determined to target its products not at an elite group, but at the wider public, while still maintaining meticulous attention to choice of materials and construction criteria.

This paved the way for the first collection, which transformed the traditional image of the sauna and proposed a "designer" version, available in a range of different materials and styles.

Another important milestone in the company's history was the introduction of the hammam, or turkish bath, which helped effegibi become the leading brand in the wellness sector, as it is now regarded worldwide.

SPA SYSTEMS

wellness concept

Since 1975, the year in which Turri Ardelio fund the Company, our mission has always been to constantly commit ourselves to the search of wellness solutions in order to satisfy everybody's desires.

The objective to "deal with all the activities directly and indirectly related to human body care and harmonious development" is actually stated in the memorandum of the company.

More than 35 years' activities that enabled us to revolutionize spa design and launch new products in the market resulting in the synthesis of quality, research and development.

Mar piscine Srl works from over 25 years especially among public and private swimming pools.

We construct, sell and install AISI 304 - V2A and AISI 316/L-V4A Stainless Steel accessories and components for the most beautiful and pleasant swimming pools in the world.

The professionality, together with the know-how, and with the hudge experience allows us to face, and resolve in the best way possible, every little/big problem concerning swimming pools, and therefore push our enterprise to constantly search a higher level in costructing and maintaining the assistance quality to our numerous clients.

wellness concept

The company was established in 2009 to strengthen the commercial presence of Gruppo Ceramiche Gresmalt in Italy and worldwide.

At its facilities in the heart of the Emilia region, ABK produces floor and wall tiles and large-size porcelain slabs ideal for use in indoor and outdoor spaces and inspired by the latest trends in the worlds of interior and graphic design.

At ABK we provide distinctive and original solutions for the home, retail and public space design, supplying designers and retailers with cutting-edge products that combine sophisticated aesthetics with outstanding technical performance.

Our floor and wall tiles and porcelain slabs for interior and exterior applications are available in extra-thick versions and include modular and flexible solutions.

DALARES

a, S.A. was established in August 1994 under the direction of a group of professionals, with extensive experience in the ceramic industry, that decided to open a production plant in the town of Onda (Castellon).

Since the beginning we decided to specialize in offering the best service possible to all our clients, and this philosophy continues to be our daily goal.

Today we produce a wide range of single-fired high quality ceramic floor and wall tiles in popular sizes: 22,5×60, 22,5×45, 21,5×58, 33×33 and 45×45 cms.

Our facilities have the most modern technologies of ceramic digital printing and automated classification and packaging

nov@gro/

Novogres SA born in 1981 at the initiative of a group of professionals with extensive knowledge of ceramic industry, which apply in Novograd SA their experiences, especially the construction of ceramic machinery, acquired over more than 30 years dedicated to this activity.

The result of this initiative which began its journey might consider the first company that produces ceramic tiles in red body through a system of single firing in roller kilns monolayer.

Already in 1988 expanded the facility with a new furnace, introducing the single-fired ceramic roller kilns also monolayer.

In 1998 came another amplicación and modernization of equipment, introducing new machines and technologies to start production of white paste porcelain floor tiles.

since 1968, ceramica colli is synonymous with design and quality.

We are based in Fiorano Modenese, right in the heart of the Sassuolo ceramics district where the quality of the raw materials and the technological evolution have made it the world leader for the ceramics industry.

The constant quest for beauty and uniqueness is our mission that we pursue every day.

Our collections are the expression of Italian creativity in which "Made in Italy" is not only synonymous with quality, but is a way of

being and living.

In the year 1899, Klingenberg Dekoramik was founded in the town of Klingenberg am Main, which is around 70 km south-east of Frankfurt.

It was originally called 'Albertwerke', and now looks back upon more than a century of tile manufacturing tradition.

Since 1995, Klingenberg Dekoramik has belonged to the Italian Ricchetti Group, which operates more than nine production sites across Europe.

With a production volume of approximately 1.5 million m2 per annum manufactured using the very latest technology, Klingenberg is one of the leading German producers of unglazed ceramic floor tiles.
